

# Cat food

*Made by France*

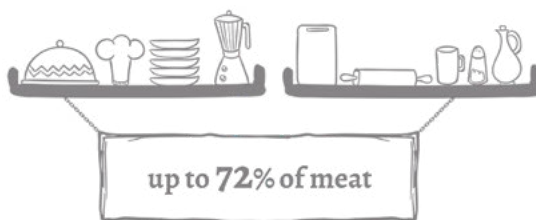

*The birthplace of gastronomy  
with tradition and culture*

*Rich in meat*

*First ingredient of all recipes is  
meat : up to 72% meat*

# *The key benefits in our recipes*

What your dog or cat eats affects all aspects of his health and well-being. The BON APPETIT holistic diet is designed to not only treat your pet's hunger, but also help maintain their health and well-being by meeting all their nutritional needs.

Biologically suitable, it is made from high quality ingredients suitable for human consumption and is characterized by: several sources of good quality animal protein, vegetables and fruits, contains omega 3 and 6 essential fatty acids, probiotics and prebiotics, glucosamine and chondroitin.

**Hypoallergenic and gluten-free food for dogs and cats**

**Rice and fruit instead of potatoes and peas for better digestion**

**Olive oil: the health advantage of BON APPETIT**

**Ingredients of European origin**

**High meat content: up to 72%**

**9 antioxidants to strengthen the immune system**

**Essential fatty acids, vitamins, minerals, etc.**

**Our petfood is made in France and Belgium**

# Advantages

## Healthy diet

**Olive oil is powerful way to protect against degenerative disease.** It is a rich source of monounsaturated fats, which reduce the risk of heart disease by decreasing levels of artery-clogging lipids in the blood. Additionally, olive oil is a rich source of polyphenols—powerful antioxidants that are increasingly attracting attention for their ability to promote good health.

## Super 9 natural antioxidants

Natural antioxidants to **protect cells in the body from free radical damage** that can occur from exposure to certain chemicals, smoking, pollution, radiation. Our recipes are rich in natural antioxidants and therefore may be good for the heart health, may also help to lower risk of infections and some forms of cancer.

## High content of meat : up to 72%

**Proteins of animal origin are essential for our pets who are carnivore.** They have structural role in bones, muscles, tendons, ligaments and skin, functional role: they are present in enzymes, hormones and antibodies and a higher biological value than plant-based proteins. Their amino acid profile is more complete and they promote a better digestibility.

## Rice

**Nothing better than rice for perfect digestion.**

Many foods produce metabolic waste (some, such as purines, are toxic), the body must eliminate them at the cost of heavy stresses on organs such as liver and kidneys. However, rare in food, rice does not contain purines.

## Energy & Vitality

**Antarctic krill is rich of proteins.** This small animal found in the Antarctic waters of the Southern Ocean is not concerned by heavy metals, neither antibiotic. It is a 100% natural and healthy supplement, rich source of protein. Contains a lot of iodine, sodium, potassium, magnesium, calcium. Rich in omega-3 EPA and DHA, beneficial for maintaining cardiovascular system, brain and nervous system, skin and joints. It is a powerful natural antioxidant with excellent bioavailability.

## EPA DHA

**Fish oils rich in essential fatty acids omega 3 and 6, strengthen the immune system** and improve the heart system, help reduce the risk of allergies, increase the quality of the coat and promote general well-being.

## No Gluten

**Our recipes are gluten free they are free from wheat, rye, corn** or any other derivative of these products to avoid the risk of food allergies.

## Joints Prevention

**Glucosamine and chondroitin may offer anti-inflammatory and pain-relieving benefits.** They help build and repair cartilage that connects the joints. Marjoram is an anti-inflammatory herb and is known to relieve painful joints.

## Top Vitamins

Grape seeds extract and lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid) **provide an important contribution of vitamin A, B and C, in addition to their antioxidant properties.** Essential elements for the good functioning of the organism: protection of the immune defenses and the cardiovascular system, prevention of the cancerous diseases, contribution in the manufacture of collagen.

## KITTEN

**75% Chicken**

**25% Vegetables & Fruits**

**0% Gluten**

1,5KG & 0,4KG

### Composition

Chicken meat 65%, rice, chicken fat (with tocopherols), fruits & vegetables & herbs (olive pulp (coenzyme Q10 source), green peas (natural source of iron), grape seeds extract (natural antioxidants), lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid), thyme, oregano, marjoram, parsley), hydrolysed chicken protein, beet pulp (source of betaine), sodium chloride, fish oil from anchovy and sardine 0,2% (rich in omega 3 and omega 6 fatty acid), yeast extracts (natural vitamin B complex), saccharomyces cerevisiae (mannan-oligosaccharides), chicory roots extract (fructo-oligosaccharides).

### Analytical constituents

Crude protein 38 %, crude fats 21 %, crude fibre 2 %, crude ash 6,5 %, calcium 1,45%, phosphorus 1,05%, sodium 0,45%.

## ADULT GOURMAND

**71% Salmon & Chicken**

**29% Vegetables & Fruits**

**0% Gluten**

1,5KG & 0,4KG

### Composition

Salmon meat 42% (natural source of EPA and DHA), chicken meat 20%, fruits & vegetables & herbs (olive pulp (coenzyme Q10 source), green peas (natural source of iron), grape seeds extract (natural antioxidants), lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid), thyme, oregano, marjoram, parsley, sage), rice, farm potatoes, chicken fat (with tocopherols), beet pulp (source of betaine), hydrolysed chicken protein, rice protein, Antarctic krill (rich in omega 3 and omega 6 fatty acid), sodium chloride, yeast, fish oil from anchovy and sardine 0,2% (rich in omega 3 and omega 6 fatty acid), yeasts extracts (natural vitamin B complex), saccharomyces cerevisiae (mannan-oligosaccharides), chicory roots extract (fructo-oligosaccharides).

### Analytical constituents

Crude protein 34 %, crude fats 19 %, crude fibre 2,5 %, crude ash 7 %, calcium 1,45 %, phosphorus 1,1 %, sodium 0,7%.

## ADULT SENSITIVE

**70% Salmon & Chicken**

**30% Vegetables & Fruits**

**0% Gluten**

1,5KG & 0,4KG

### Composition

Salmon meat 40% (natural source of EPA and DHA), chicken meat 22%, farm potatoes, rice, fruits & vegetables & herbs (olive pulp (coenzyme Q10 source), green peas (natural source of iron), grape seeds extract (natural antioxidants), lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid), thyme, oregano, marjoram, parsley, sage), chicken fat (with tocopherols), potatoes protein, hydrolysed chicken protein, Antarctic krill (rich in omega 3 and omega 6 fatty acid), beet pulp (source of betaine), sodium chloride, yeast, fish oil from anchovy and sardine 0,2% (rich in omega 3 and omega 6 fatty acid), yeast extracts (natural vitamin B complex), saccharomyces cerevisiae (mannan-oligosaccharides), chicory roots extract (fructo-oligosaccharides).

### Analytical constituents

Crude protein 34 %, crude fats 19 %, crude fibre 2,5 %, crude ash 6,9 %, calcium 1,45%, phosphorus 1,1 %, sodium 0,7 %.

**ADULT STERILIZED**  
**70% Salmon & Chicken**  
**30% Vegetables & Fruits**  
**0% Gluten**

1,5KG & 0,4KG

*Composition*

Chicken meat 41%, salmon meat 20% (natural source of EPA and DHA), rice, farm potatoes, fruits & vegetables & herbs (olive pulp (coenzyme Q10 source), green peas (natural source of iron), grape seeds extract (natural antioxidants), lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid), thyme, oregano, marjoram, parsley, sage), chicken fat (with tocopherols), beet pulp (source of betaine), hydrolysed chicken protein, potatoes protein, sodium chloride, yeast, fish oil from anchovy and sardine 0,2% (rich in omega 3 and omega 6 fatty acid), yeast extracts (natural vitamin B complex), saccharomyces cerevisiae (mannan-oligosaccharides), chicory roots extract (fructo-oligosaccharides).

*Analytical constituents*

Crude protein 33 %, crude fats 12,5 %, crude fibre 3 %, crude ash 6,8 %, calcium 1,45 %, phosphorus 1,15 %, sodium 0,83%.

**ADULT URINARY**  
**70% Salmon & Chicken**  
**30% Vegetables & Fruits**  
**0% Gluten**

1,5KG & 0,4KG

*Composition*

Chicken meat 42%, salmon meat 21% (natural source of EPA and DHA), farm potatoes, rice, fruits & vegetables & herbs (olive pulp (coenzyme Q10 source), green peas (natural source of iron), grape seeds extract (natural antioxidants), lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid), thyme, oregano, marjoram, parsley, sage), chicken fat (with tocopherols), hydrolysed chicken protein, beet pulp (source of betaine), sodium chloride, yeast, fish oil from anchovy and sardine 0,2% (rich in omega 3 and omega 6 fatty acid), yeast extracts (natural vitamin B complex), saccharomyces cerevisiae (mannan-oligosaccharides), chicory roots extract (fructo-oligosaccharides).

*Analytical constituents*

Crude protein 34 %, crude fats 15 %, crude fibre 2,9 %, crude ash 6,9 %, calcium 1,45%, phosphorus 1,15%, sodium 0,85%.

# *Bon Appetit to our dogs and cats !*

***We connect historical and traditional French gastronomy food with the newest knowledge of nutrition for dogs and cats!***

We develop recipes which are rich in ingredients to fulfill all the needs of our pets. At Bon Appétit we analyze thoroughly the most efficient ingredients to elaborate the recipe with best nutritional intake and optimal digestion.

The highest priority is a high meat content in our recipes because our dogs and cats are primarily carnivores. Their digestive system and body are designed to metabolize protein and fat from animal sources.

Our dogs and cats need also vegetable proteins for their general health as they are rich in essential nutrients – mineral salts, natural vitamins and chlorophyll. These are all very necessary for their general good metabolism and fitness.

## ***Our commitment***

By NATYKA® : since many years NATYKA® is engaged in animal nutrition of high-end quality.

Bon Appétit is actively engaged to select raw materials with lowest risk to allergies and toxicity for our dogs and our cats. We have to focus, today more than ever, on the petrochemical impact on our nutrition.

As a responsible producer, we are voluntarily committed to a sustainable way of life for the well-being of our animals and the preservation of their health.

**France is recognised  
for its gastronomy and  
way of life.**

**Our products are inspired  
by authentic taste, nutritional  
value and rich ingredients.**
