NATYKA[®] Gourmet

THE BEST

ALTERNATIVE TO BARF

What means BARF? "Biologically Appropriate Raw Food" is a complete and carefully balanced blend of raw meat, fruits and vegetables.

NATYKA

KNOWS YOUR PET'S NEEDS

Because Natyka Gourmet knows the nutritional needs of your animals, we developed this range of high protein foods of animal origin, with high content of fresh meats and of nutrients essential to maintain a healthy pet.

The semi-wet consistency of the kibbles with a content of 18% of humidity aids ingestion and digestion. As a result, the higher palatability of the recipes will help you to make the right choice for your dog's health all over his life.

SHARE

PASSION AND HEALTH

All our recipes are made in France and have been developed with love and passion, two essential characteristics of our team.

The founder of the brand is a breeder of purebred Siberian Huskies with international reputation. Twenty years ago, out of love for his dogs, he wanted to increase the quality and content of meat in feeding his own dogs and this is how he developed Natyka. Today, Natyka remains unique in its composition, its protein content of animal origin and its semi-wet consistency.

THE BRAND THAT TAKES CARE OF YOUR PET'S WELL-BEING

Natyka Gourmet set as first objective the health of your dog thanks to a high content of fresh meat (intended for human consumption) and the humidity of the kibbles that is superior than traditional petfood to support digestive system.

Natyka is also very attentive to the quality and the origin of the raw materials, especially the meats used in our recipes that come from France.

POULTRY RECIPE FOR PUPPIES

MADE
FROM

90%

INGREDIENTS
OF ANIMAL ORIGIN

YOU HAVE JUST ADOPTED A PUPPY AND YOU ARE LOOKING FOR THE BEST WAY TO SATISFY HIS TASTE BUDS? WELCOME, YOU ARE AT THE RIGHT PLACE.

52% Fresh poultry*

38% Poultry ingredients

0% Gluten

COMPOSITION

Ingredients: Poultry (including 52% fresh chicken* and 20% dried poultry), rice, hydrolysed poultry protein 8%, poultry fat 8%, dried potato, sunflower and rapeseed oil, peas, beet pulp, sodium chloride, hydrolysed liver protein 1%, salmon oil 1%, dried chicory (source of inuline), dried apple, yeast, minerals, psyllium husk, Yucca Schidigera, thyme, origano, marjoline, parsley, sage, *before extrusion

Analytical constituents: Crude protein 26.0%, Crude protein 31.0% on dry product, Crude fat 15.0%, Crude fiber 1.5%, Crude ash 6.7%, Moisture 18.0%, Calcium 1.1%, Phosphorus 0.9%

Nutritional additives: Vitamin A 18.000 IU/kg, Vitamin D3 1.200 IU/kg, Iron (iron sulphate monohydrate) 69 mg/kg, Iodine (anhydrous calcium iodate) 1.8 mg/kg, Copper (copper sulphate pentahydrate) 8 mg/kg, Manganese (manganese sulphate) 7.5 mg/kg, Zinc (zinc sulphate) 117 mg/kg, Selenium (selenomethionine) 0.05 mg/kg. Contains EU-permitted antioxidants and preservatives.

SPOIL YOUR PUPPY WITH NUTRITIOUS FOOD

This recipe meets the nutritional needs of puppies thanks to a high content of fresh meat. It provides with a balanced diet intended to support healthy development, optimal health and serene growth. Read our list of ingredients and you will be convinced of its low allergenic potential.

Be aware that daily ration should be adapted on weight and age of your puppy.

INGREDIENTS CHOSEN TO MEET THE SPECIAL NUTRITIONAL REQUIREMENTS OF YOUR PUPPY

Poultry meat is lean meat, helps build lean muscle mass and provides omega 6 fatty acids that help maintain healthy skin and a shiny coat.

Other ingredients are included in this recipe, to the delight of your companion.

Thyme, for example, is a very effective antiseptic on the digestive system, and may contribute to a deworming effect. It is also known for its anti-infectious, antiparasitic and immunostimulating properties.

POULTRY RECIPE

FOR ADULT DOGS

MADE
FROM

85%

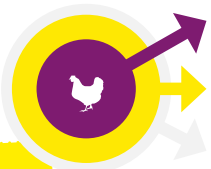

INGREDIENTS
OF ANIMAL ORIGIN

85% INGREDIENTS OF ANIMAL ORIGIN MAKE UP THIS RECIPE FOR ADULT DOGS.

This high content of ingredients of animal origin contributes to the development of the athletic muscle mass and to a healthy and shiny coat. This complete food suitable for all dog breeds is very specific due to semi-moist consistency that will promote a good metabolism. Allergies and food intolerance risks are clearly reduced as it is a gluten free composition.

Contains EU-permitted antioxidants and preservatives.

BENEFITS OF A WELL-MADE RECIPE

Fresh poultry meat is the first ingredient in the Gourmet Poultry recipe. We wanted to create the healthiest recipe possible in order to meet your dog's nutritional needs and to provide the energy necessary for every day.

For this, we used natural ingredients such as fresh chicken. We added dried apple or sage for their antiseptic and calming effects.

HIGH QUALITY INGREDIENTS

Light and highly digestible, the poultry meat used in this recipe is rich in iron and zinc.

Natyka Gourmet Adult Poultry contains also very digestible rice and a blend of herbs rich in proteins, vitamins and minerals to strengthen your dog's immune system.

LAMB & SALMON RECIPE

FOR ADULT DOGS

MADE
FROM

88%

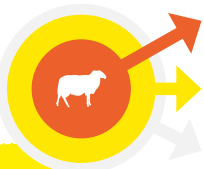

INGREDIENTS
OF ANIMAL ORIGIN

OUR GLUTEN-FREE LAMB AND SALMON RECIPE IS A LITTLE WONDER.

Firstly, because it is suitable for all adult and senior dogs, but also because its semi-wet consistency makes it a favored food for dogs with digestive or dental problems. If your dog is experiencing any of these symptoms, then this formula is for him!

KIBBLE SIZE
14MM

50% Fresh lamb*

38% Lamb & Salmon ingredients

0% Gluten

COMPOSITION

Ingredients: Lamb (including 50% fresh* and 15% dehydrated), rice, salmon dehydrated 15%, peas, poultry fat 6%, sunflower and rapeseed oil, beet pulp, yeast, sodium chloride, hydrolysed animal protein 1%, salmon oil 1%, dried apple, dried chicory (source of inuline), minerals, psyllium husk, Yucca Schidigera, thyme, origano, marjoline, parsley, sage. *before extrusion

Analytical constituents: Crude protein 25.0%, Crude protein 30.0% on dry product, Crude fat 15.0%, Crude fiber 1.5%, Crude ash 9%, Moisture 18.0%, Calcium 1.7%, Phosphorus 1.1%.

Nutritional additives: Vitamin A 18.000 IU/kg, Vitamin D3 1.200 IU/kg, Iron (iron sulphate monohydrate) 69 mg/kg, Iodine (anhydrous calcium iodate) 1.8 mg/kg, Copper (copper sulphate pentahydrate) 8 mg/kg, Manganese (manganese sulphate) 7.5 mg/kg, Zinc (zinc sulphate) 117 mg/kg, Selenium (selenomethionine) 0.05 mg/kg. Contains EU-permitted antioxidants and preservatives.

FOR BETTER DIGESTION

The kibbles are easy to absorb, naturally hypoallergenic and good for your dog's digestive balance, thanks to prebiotics derived from brewer's yeast, chicory and psyllium which promote the gastrointestinal system.

Concerned about the good digestion of your dog, we took up the challenge of creating kibbles that are (really) easy to digest. Your dog will fill up his energy at every meal, keep a stable weight, feel good and therefore be more dynamic.

A RECIPE RICH IN GOOD INGREDIENTS

This recipe is made from meat and fish. On the one hand, lamb is particularly well suited to dogs with digestive sensitivity. On the other hand, salmon is an excellent source of omega 3 fatty acid which is recommended for promoting good mental development, healthy skin and a shiny coat.

Rice considered as the easiest source of carbohydrate for our carnivores to digest, completes the composition. Is your dog's stomach a little sensitive? Choose this recipe rich in amino acids, vitamins and minerals.

Contains EU-permitted antioxidants and preservatives.

MORE CALORIES FOR MORE ENERGY

Did you know? Small breed dogs need more calories for their full development. This is because smaller dogs have a high metabolism which helps them burn calories quickly.

This recipe designed for your small breed animals contains almost 90% ingredients of animal origin. Thus, it perfectly meets their nutritional needs. In addition, the size of the kibbles is adapted for their good digestive health: neither too small nor too big!

A SHINY COAT AND A HAPPY DOG

The poultry meat provide a very good source of complete protein and contains the 9 amino acids necessary for the body of your small animal: it is a source of iron, zinc and phosphorus.

A variety of ingredients such as apple, herbs (thyme, oregano, marjoram, parsley and sage) is added which also provide nutrients. Salmon oil provides essential fatty acids for your dog's health (Omega 3 and 6). For a long and healthy life.

STERILIZED

TO PREVENT OVERWEIGHT FOR STERILIZED CATS

MADE
FROM

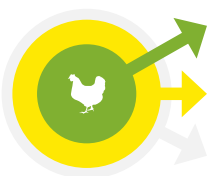

68%

INGREDIENTS
OF ANIMAL ORIGIN

NEUTERING DOES RESULT IN SOME PHYSIOLOGICAL CHANGES WHICH NEED TO BE CONSIDERED BECAUSE AFTER NEUTERING, A CAT WILL BE LESS ABLE TO REGULATE ITS HUNGER.

At the same time, its daily energy requirements actually reduce, so obesity is a real risk if the cat's diet is not adapted straight away.

Of course, weight gain can lead to many other problems including joint problems, grooming problems, urinary tract problems and an increased diabetes risk.

41% Chicken meat

20% Salmon meat

0% Gluten

COMPOSITION

Ingredients: Chicken meat 41%, salmon meat 20%, sweet potatoes, rice, chicken fat, hydrolysed chicken protein, peas, beet pulp, potato protein, sodium chloride, olive pulp, thyme, oregano, marjoram, sage, parsley, anchovy and sardine oil, yeast extracts, plant extracts (citrus sp.), MOS, FOS.

Analytical constituents: crude protein 33%, crude fat 12.5%, crude fibre 2.5%, crude ash 7.7%, calcium 1.45%, phosphorus 1.15%, sodium 0.83%, moisture 7%.

Nutritional additives: vit. A 22,500 IU, vit. D3 1,800 IU, vit. E 150 ppm, vit. B1 16 ppm, vit. B2 28 ppm, vit. B6 12 ppm, vit. B12 240 ppb, vit. C 50 ppm, folic acid 4 ppm, biotin 750 ppb, taurine 3000 ppm, iron (iron sulphate monohydrate) 125 mg/kg, copper (copper sulphate pentahydrate) 12 mg/kg, manganese (manganese sulphate) 13.5 mg/kg, zinc (zinc sulphate) 130 mg/kg, selenium (selenomethionine) 0.28 mg/kg, iodine (calcium iodate anhydrous) 2.6 mg/kg.

A GOURMET RECIPE FOR STERILIZED CATS

The Natyka recipe for sterilized cats contains 68% of ingredients of animal origin, including 41% chicken meat and 20% salmon meat. Developed by nutritionists, it meets the needs of sterilized cats very well while offering them an irresistible taste thanks to quality ingredients.

The addition of the beneficial herbal mix contributes to good digestion and proper functioning of the body while having an anti-oxidant effect.

NUTRITION IS KEY FOR THE HEALTH OF STERILIZED CATS

The sterilised cat is highly susceptible to form stones in the bladder. Naturally, the cat doesn't drink much and sleeps often all day.

[AVAILABLE IN 2KG]

But, after sterilisation it will do even less and its urine will remain stagnant in the bladder for longer. This situation, along with others such as being overweight, predisposes it to the formation of kidney stones or grit.

To avoid this situation, we strongly recommend to encourage your cat to drink more. Install for example pet fountains and several water bowls in your house with fresh water, and your cat will be stimulated to drink more.

URINARY

URINARY PREVENTION FOR ADULT CATS

MADE
FROM

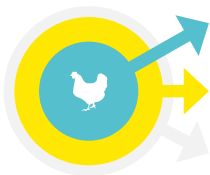

68%

INGREDIENTS
OF ANIMAL ORIGIN

NATYKA URINARY RECIPE IS SPECIFICALLY DEVELOPED FOR ADULT CATS WHO SUFFER FROM URINARY PROBLEMS.

Its mineral composition stimulates the absorption of water and dilutes the urine, thus reducing the risk of crystals or stones forming in the urine. It is formulated to promote the protection of the bladder epithelium.

Rich in antioxidants and vitamins, this food will also strengthen your cat's immune system. Fish and chicken meat proteins are naturally low in fat and highly digestible.

40% Chicken meat

20% Salmon meat

0% Gluten

[AVAILABLE IN 2KG]

COMPOSITION

Ingredients: Chicken meat 40%, salmon meat 20%, sweet potatoes, rice, chicken fat, hydrolysed chicken protein, peas, beet pulp, olive pulp, thyme, oregano, marjoram, sage, parsley, sodium chloride, yeast extracts, anchovy and sardine oil, plant extracts (citrus sp.), MOS, FOS.

Analytical constituents: crude protein 34%, crude fat 13%, crude fibre 2,5%, crude ash 7,7%, calcium 1,45%, phosphorus 1,15%, sodium 0,85%, moisture 7%.

Nutritional additives: vit. A 22,500 IU, vit. D3 1,800 IU, vit. E 250 ppm, vit. B1 16 ppm, vit. B2 28 ppm, vit. B6 12 ppm, vit. B12 240 ppb, vit. C 50 ppm, folic acid 4 ppm, biotin 750 ppb, taurine 3200 ppm, iron (iron sulphate monohydrate) 125 mg/kg, copper (copper sulphate pentahydrate) 12 mg/kg, manganese (manganese sulphate) 13,5 mg/kg, zinc (zinc sulphate) 130 mg/kg, selenium (selenomethionine) 0,28 mg/kg, iodine (calcium iodate anhydrous) 2,6 mg/kg.

INCREASE YOUR CAT'S WATER INTAKE !

Water intake affects more than just a cat's kidneys, and kidney function plays a role in other urinary problems. As obligate carnivores, the normal instinctual diet of cats consists of prey animals that are high in protein and have moderate amounts of fat.

The typical prey animal for a housecat, usually a rat or mouse, consists of approximately 50 to 60% protein, 15 to 30% fat on a dry matter basis and 70 to 80% water. This indicates that 70 to 80% of the cat's natural instinctive diet should consist of water.
